Hopscotch

COLOR SHADE VARIATION

Variations in color, shade, and texture are inherent in ceramic tile. Several pieces should be examined collectively prior to installation.

Grout Joint Recommendation: Approximately 3/16"

APPLICATION

Appropriate for interior and exterior floors and walls in freezing and non-freezing temperatures. Porcelain tile floors, like other types of glazed floors, can become slippery when wet. Take extra care when selecting a floor product that will be exposed to conditions such as liquids, grease, or oil. Always follow proper installation methods.

TECHNICAL SPECIFICATIONS

TEST NAME	ASTM TEST	TEST RESULTS
 Abrasion Resistance	ASTM C-1027	III / IV
 Breaking Strength	ASTM C-648	669 lbs.
 Chemical Resistance	ASTM C-650	Resistant
 Coefficient of Friction	ASTM C-1028	Dry Neolite >0.65 Wet Neolite 0.6
 Frost Resistance	ASTM C-1026	Resistant
 Scratch Hardness	MOHS SCALE	7
 Water Absorption	ASTM C-373	0.2%

Inspired by current design trends, Emser Tile's exclusive Forma™ series recalls looks as diverse as concrete, terracotta, metal, and natural stone. This versatile new series is fashionable and complex, yet timeless due to its classic, European aesthetic.

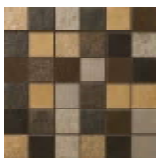

Made in Italy, Forma™ features four bold colors, with subtle shading. Each color is available in an array of sizes including 7x7, 7x20, 13x13, 13x20 and 20x20, allowing for a variety of pattern possibilities. Each color is also available in two distinct surfaces: Smooth and Textured.

Forma™'s ravishing smooth surface is well suited for indoor use, while Forma™ Textrued offers a dramatic surface that can be used both indoors and outdoors. This striking new glazed through body porcelain series can be used both residentially and commercially, in settings of rustic or contemporary nature.

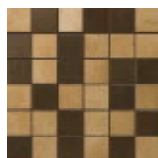

A selection of three mosaic blends complement this exciting new series.

Forma™ is LEED certified and has a presence of at least 20% pre-consumer recycled content including mud and rejected unfired material.
